***Memo***

---

To: Board of Directors  
From: Staff  
Date: October 15, 2024  
Subject: Neptune 360

A representative from Neptune will be coming to present Neptune 360, which is Neptune's AMI system. They will be showing how their system works. This would be an alternative to AclaraOne. From the information we have received thus far, Neptune's overall cost is less than what we are paying currently for AclaraOne. The cost of the field crew repairing, troubleshooting, replacing and fuel costs would be less with Neptune 360 because of the proficiency of Neptune's equipment.
