

Memo

To: Board of Directors
From: David Sale
Date: 11/13/24
Subject: VVPMWC update

I reached out to Hector Cazares at the state to get an update on the consolidation status. Hector informed me he received a new position and Elvira Reyes had taken his old spot. She responded in general, an application is submitted, reviewed, deemed complete, routed for approval, and then awarded funding.

Mr. Ruben Mora has been assigned the contract State Revolving Fund Project No. 3610046-001P Valley View Mutual Water Company-Valley View Park MWC Crestline CWD consolidation study. He responded that he has been in contact with Criag Randall with Valley View. They are trying to expedite the application as much as possible. The timeline can vary between 10 months to a year to execute a contract.

I have been looped into the emails so we will have a better idea of the status from here on.
